About Me

I am a 15-year-old Full-Stack Web Developer passionate about creating modern, functional, and scalable websites and applications. With expertise in Laravel, MySQL, and JavaScript, I specialize in backend development, database management and building dynamic, user-friendly web applications.

Skills

- Laravel (PHP)
- MySQL
- JavaScript
- HTML & CSS
- Tailwind
- Web Hosting & Deployment

Education

High School Student
Mehmet Akif College
📅 2024 – Present
Currently attending high school.

Full-Stack Web Development
Digital School, Prizren
📅 2021 - Present
Completed training in HTML & CSS, JavaScript, Bootstrap, PHP, Laravel, Tailwind, React.js, and React Native.

Certifications

Front-End Developer
Skills: HTML, CSS, JS, Tailwind, Bootstrap   October 2022
This certificate recognizes my proficiency in front-end development, including HTML, CSS, JavaScript, and Tailwind CSS. It validates my ability to design and build responsive, interactive, and user-friendly websites, focusing on modern UI/UX principles.

Back-End Developer
Skills: PHP, MySQL, Laravel   May 2023
Awarded for demonstrating expertise in server-side development using PHP, MySQL, and Laravel. This certification confirms my ability to build, manage, and optimize databases, develop secure authentication systems, and create scalable web applications.

Laravel Developer
Skills: Laravel, MySQL   February 2023
This certification verifies my advanced knowledge of Laravel, covering MVC architecture, database migrations, Eloquent ORM, and API development. It demonstrates my ability to build robust, efficient, and maintainable applications using Laravel.

React JS & React Native Developer
Skills: React JS, React Native   December 2024
This certification confirms my proficiency in React JS and React Native, proving my ability to develop dynamic web applications and cross-platform mobile apps. It highlights my skills in component-based architecture, state management, and modern JavaScript frameworks.
